

Synthesis of the training activities

By Ecoistituto del Friuli Venezia Giulia

Participants: 25 social educators

Selection criteria:

- Their interest in the topic of parent-training
- Their availability
- Access to a computer and internet connection

Learning units prepared by Ecoistituto:

Organization of the online training course

1. Parent-training and evaluation processes
2. Peer learning (the basis of parent-training).
3. Parent-training

Ecoistituto translated in Italian the partners' e-learning units.

E-learning platform: the Moodle system according to the requirement of the Rezekne Academy of technologies.

Distance learning tools: Skype and Power-point slides prepared for distance learning purpose. Information was posted on a Facebook profile.

Training organization: 4 small groups of learners in order to manage interactivity and respond to the needs of those learners that cannot participate in the same learning session. Indeed, in some cases, in the morning, the same computer was shared for parents' smart working and distance learning of children.

Duration of distance learning lessons: 45 minutes.

Exercise tasks performed on the web:

- Searching on the internet parent training materials to realize a short report.
- Organizing a parent-training event using the didactic materials of the training course.

Training course agenda

The training course activities started on May 11 2020 and finished on June 9 2020.

On June 9, learners attended the final lesson discussing the training results.

On June 9, Ecoistituto sent by email the certificate of attendance and the evaluation questionnaire to all participants.
