## **Dissemination Activities Presentation**

Mancomunitat Ribera Alta

### **Dissemination Activities:**

- > Dissemination of the project through the **Official Website of Mancomunidad.**
- Dissemination of the project through the organization of a multiplayer event with representatives of all municipalities for the dissemination of the ESEC project and its activities.
- Dissemination of the project activities by publishing press releases on the project events (coordination meetings, training events, etc.), carried out during the ESEC Project.
- Dissemination of the project activities through the Official Social Networks of Mancomunidad (Official Facebook Profile).
- Dissemination of the project activities through communication with the different municipalities and town halls of the territory.

# Dissemination of the project through the Official Website of Mancomunidad.

El proyecto ESEC proporcionará a los educadores sociales las nociones necesarias para diseñar y llevar a cabo cursos de capacitación para padres en un entorno online. Realizara un programa de capacitación innovador para padres de niños con discapacidades funcionales con el fin de ampliar y desarrollar las competencias y habilidades actuales tanto de los educadores sociales como los maestros de apoyo.

Los principales resultados esperados del proyecto ESEC son:

- Pautas basadas en evidencia para diseñar, implementar y ejecutar programas de capacitación para padres,
- Un programa educativo 2.0 que aborde todos los problemas, teóricos y prácticos, relacionados con la capacitación y que incluya un curso de capacitación para padres de niños con discapacidades de comportamiento

El curso de capacitación es una aplicación de las pautas basadas en la evidencia, ya que el proyecto ESEC prevé que los alumnos utilicen las pautas para diseñar, implementar y dirigir un curso de capacitación para un grupo específico de padres (padres de niños con discapacidades de conducta), bajo la supervisión de expertos (pedagogos especiales, pedagogos sociales, psicólogos, antropólogos sociales y expertos en redes sociales).

#### Dissemination of the project activities through **communication with the different municipalities and town halls** of the territory.

For the dissemination of the project activities, this implies coordination with the different municipalities and town halls of the territory of the Ribera Alta region, which includes:

- Contact via electronic messaging with the municipalities of the region for communication of the project, carrying out activities and events and dissemination of it.
- ✓ Involvement of the administration staff together with that of the Mancomunidad in the participation of the project activities.
- ✓ Publication of information on the official websites and profiles of the town councils of the activities carried out within the framework of the DSI project.
- ✓ Promotion of communication and knowledge of the project by the citizens of the territory, through collaboration with the municipalities and town halls of the Ribera Alta region.
